DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance.

The claims are novel and unobvious because:

- a. Different Catalyst. None of the prior art used the bifunctional catalyst, which involved the use of bimetallic catalyst concurrently. Prior art teaches the use of hydrogenation or halogenation using metal catalysts.
- b. Advantage over the multi-step process for removal of olefinic and saturated chlorinated impurities.
- c. High yield of hydrofluoropropanes in this purification process using bifunctional catalyst.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
